The *Michigan 1870 Census Index* is an alphabetical list of the family names in each household residing in every county and township in Michigan in 1870.

The printed version of the index received the Paul W. Thurston award in 1993 as a notable government document.

Paper copies of individual volumes or the full set are available for purchase from the Library of Michigan.

Michigan Cemetery Sources

Update: Burials added!

When you "view" a cemetery, look at the "burials" column and "click to view" the names of the persons buried. This is a work in progress. We want to thank the many contributors for making these names available on the internet.

History and Description

The Michigan Cemetery Sources web site represents a compilation of published cemetery transcriptions located at the Library of Michigan and links to Michigan cemetery websites. This database also identifies the location of over 3,700 cemeteries in Michigan. It is NOT intended to include a list of personal names.

The compilation of this data began before computers were widely used. This information has been gathered from a variety of sources. Staff identified Michigan cemetery transcriptions in the Library and created a card file to aid in finding materials. Materials provided by the State Archives of Michigan and the Michigan Department of Licensing and Regulation concerning the defunct Michigan Cemetery Commission were also of great value in identifying the existence and location of cemeteries.

Much of this searchable information was published in the Michigan Cemetery Atlas and the Michigan Cemetery Source Book. The web site also contains information received by the Library since the Atlas (1991) and Source Book (1994) were published.

This site is a work in progress that will be updated as the Library catalogs additional transcriptions received for Michigan cemeteries and adds links from the Internet.

If you are aware of a cemetery that has not been identified in this database, please [Contact](#) the Library so that we may update this information.

Searching Ancestry's databases is free, and then viewing the final results in the genealogical datasets is available by paid subscription. A search serves up a "Ranked Search Result" based on your query. The displayed list of results indicates which of the many databases has a possible match, as well as suggestions to help you refine your search. Following the links for the search hits will result in one of two things: if you are already a paid subscriber you will see the database matches right away; if you are not yet a subscriber you are pointed to a "landing page" that gives you options to become a paid subscriber to one of Ancestry's membership packages.

Michigan County Histories

The Michigan County Histories collection is a collaborative effort of Michigan's Council of Library Directors. The collection is projected to provide access to 192 histories dating from 1866 to 1926. There are 202 volumes in 170 titles currently online. The collection is made possible, in part, through a generous [Library Services and Technology Act \(LSTA\)](#) grant.
